How many days and nights have sped away Since, in an idle hour, Fastidium wrote "The course of true love never did run smooth," I cannot tell. And now "Observer" comes To win fresh laurels on the field of fame-To plend the cause of his fair heroine. Where have you been, "Observer," all this while, That now you come, and fill your burning page With ideas grand, uspeakably sublime? Hast thou been loitering in the Elysian fields, Plucking the brightest flowers of poetry? Or, with blind Homer, hast thou wandered o'er The classic hills, and along the murm'ring streams Of Greece? Or else with Virgil's hero, thou Hast visited Tartarus' gloomy shades, And seen the Stygian flood? Or, with Byron, Hast thou stood upon the lofty Alps; Or from the top of "darkened Jura" heard The 'live thunder' leap from ten thousand clouds? Where did you learn your idea sublime Of "Bacchus grasping the pillars of his throne To aid him stand?" You certainly have read "Tooke's Pantheon of the Heathen Gods." Or else, it was at the late festival. When you aspired to be the great High Priest; And then allowed the viands to be stolen. Whilst you and your Sylvan Goddess danced

And now, you write with most audacious air,

Than you may ever dare aspire. And, then, With your exerutiating wit, you say They "rate their whiskers higher than their brains."

Faithfully your friend, GARRETT DAVIS.

The old line Whig general committee of New York held a meeting on Tuesday night of last week to take into consideration the nomination of Mr. Fillmore for the Presidency. A proposition to fire one hundred guns in honor of his nomination was opposed as calculated to give offense to the Know-Nothings by "taking the wind out of their sails," but was finally adopted in this shape:

"RESOLVED, That, AS THE FRIENDS Of Millard Fillmore, we will fire one hundred guns in honor of his nomination tor the Presidency at Philadelphia."

A committee was appoined to carry the resolution into effect,

A Mountain Lake. - Embosomed amid the towering peaks and eternal snows of the Sierra Nevada, at an elevation of six thousand feet above the level of the sea, there is a great lake which, strange to say, does not freeze even in the present severe winter. This is probably owing to its great depth and the constant motion of its waters; for it is only at the mouth of the small streams flowing into The Placerville American thus speaks

"A portion of the lake shore consists of marshes or meadows; and the number of trout, of all sizes, but many from two to two and a half feet in length, that are found in these marshes and shallow waters during thawy days and nights of 1 ST. Hereafte, all accounts against my cust mers will be closed and settled on the 1st days of July and Jan winter and spring, are almost incredible. Kelley and Rogers, residents of the valley the present winter, are progressing finely in the construction of their twenty to yacht, and will have it completed by the middle of May; but the tempting appearance of the trout in the shallow waters induced them immediately to construct a yawl of one and a halt tons burden, which they have completed and launched; and the ease with which the piscatory inhabitants of the lake are taken almost spoils the sport. Next summer the valley will be visited by hundreds."

We believe that we can offer such inducements to those desiring to pay mone; in hand for goods, es to supercode the necessity of any one going there to purchase. We can see no good reasen

Dear Sir: I have been afflicted from my birth with scrofula in its worst form and now, after twenty years' trial, and an untold amount of suffering, have been completely cured in a few weeks by your Pills. With what feelings of rejoicing I write, can only be imagined when you realize what I have suffered, and how long.

"Never until now have I been free from this loathsome disease in some shape. At times it attacked my eyes, and made me almost blind, besides the unendurable pain; at others it settled in the scalp of my head, and destroyed my hair, and has kept me partly baid all my days; sometimes it came out in my face, and kept it for months a raw sore.

"About nine weeks ago I commenced taking your Cathartic Pills, and now am entirely free from the complaint. My eyes are well, my skin is fair, and my hair has commenced a healthy growt; all of which makes me feel already a new person.

Read this from the distinguished Solicitor of the Supreme Court, whose brilliant abilities have made him well known, not only in this but the neighboring States.

"New Orleans, 5th April, 1854. in this but the neighboring States.

"Sir: I have great satisfaction in assuring you that myself and family have been very much benefited by your medicines. My wife was cured, two years since, of a severe and dangerous cough, by your Cherry Petroral, and since then has enjoyed perfect health. My children have several times been cured from attacks of the Induenza and Croup by it. It is an invaluable remedy for these complaints. Your CATHARID PILLS have entirely cured me from a dyspepsia and costiveness which have grown upon me for some years: indeed, this cure is much move important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedies I had taken.

"You seem to us, Dector, like a providential blessing to our family, and you may well suppose we are not unmindful of it. Yours respectfully,

LEAVITT THAXTER."

"Senate Chamber, Ohio, April 5th, 1854.

"Dr. J. C. Ayes. Honored Sir: I have made a thorough trial of the Catharite Phils left me by your agent, and have been cured by them of the dreadful Rheumatism under which he found me suffering. The first dose relieved me, and a few subsequent doses have entirely removed the disease. I feel in better health now than for some years before, which I attribute entirely removed the subsequent doses have entirely removed the disease.
